

CHARGE!

Adding & Subtracting with Negative Numbers

Write your Name & Period
on the back of the piece
you cut out.

+	Directions: 1) Cut out the big rectangle (including all of the +s & -s) 2) Fold (do not cut) backwards along the dotted lines. 3) Write your name and period on the back. 4) Cut the solid lines to create flaps with one charge on each one. 5) To use this: <ul style="list-style-type: none">• Put this side face down (after reading the rest of the instructions)• To add a charge, flip the flap towards the center so that the charge shows.• To remove a charge, flip a flap out so that you can no longer see the charge.• A positive charge and a negative charge will cancel each other out, so that neither contributes to the total charge shown.	-
